

## European Non-Nano Statement

### *French decree n°2010-232 issued on 17.02.2012*

In regard to the French nanomaterial decree n°2012-232, a nanomaterial is defined in article 3 of Regulation (EC) n°1907/2006 (REACH) as a substance intentionally manufactured at nanoscale, containing particles, in an unbound state or as an aggregate or as an agglomerate and where, for 50% or more of the particles in the number size distribution, one or more external dimensions is in the size range 1 nm and 100 nm.

Our Alusion® product is **non-nano** according to the above definition.

### *Cosmetic regulation EC 1223/2009*

In regard to the Cosmetic Regulation EC 1223/2009, a nanomaterial is defined as *an insoluble or biopersistent and intentionally manufactured material with one or more external dimensions, or an internal structure, on the scale from 1 to 100 nm.*

Our Alusion® product is **non-nano** according to the above definitions.

Additionally, no raw materials created by nanotechnology are used in the manufacturing process of our Alusion® product.
