ZinClear-IM50 CCT
ZinClear-XP65 COCO

Antaria confirms that the ZinClear product range does not contain heavy metals, or use in the manufacture of this product range, any heavy metals (as confirmed by ICP-MS).

Based on our knowledge of the raw materials used to produce these products, and information from suppliers, any heavy metals are technically unavoidable due to the natural source of the raw material, and expected concentrations, with the exception of Iron, are not more than 10 ppm at present.

Geoff Acron, B. Com. CA
