## Product Details

---

### Benefits

#### *Anti-Inflammatory*

- Has anti-inflammatory properties which help to soothe sunburn or irritated skin by reducing redness and swelling.
- Promotes healing and repair through reducing inflammation, especially after UV damage.

#### *Moisturizing*

- It is a humectant which causes moisture from the environment to be attracted and allows the skin to retain it.
- Allows the skin to be soft throughout the day.

#### *Antioxidant*

- Protects against free radicals to reduce premature aging, helps to maintain skin health and appearance.
-
