

Pelemol®PHS-8

General Data

Known as: Pelemol®PHS-8

Plant Parts: Vegetable Derived

INCI: Polyhydroxystearic Acid

Product Details

Benefits

Moisturizing

- Helps to keep the skin hydrated and prevent dryness after sun exposure.

Texture

- Provides a smoother application by offering a more spreadable formula.
- Aids in creating a less greasy texture to make the product more comfortable to wear.

Water Resistance

- Forms a barrier on the skin to lock in moisture and prevent the product the product from being easily washed away by water, sweat or other forms of moisture.
-
