

Ethylhexylglycerin

General Data

Known as: Ethylhexylglycerin

Plant Parts: n/a

INCI: Ethylhexylglycerin

Product Details

Benefits

Preservation

- It is an antimicrobial agent to prevent the growth of bacteria, fungus, and yeast within the product which extends the shelf life.

Moisturizing

- It is a humectant which causes moisture from the environment to be attracted and allows the skin to retain it.
- Creates a less greasy texture to make the product more comfortable to wear.

Non-Irritating

- Helps to reduce the potential for skin irritation (makes it more suitable for those with sensitive skin types).

Deodorizing

- Has a mild deodorizing effect which can aid in neutralizing odors within the formulation.
-
