

Cyclopentasiloxane

General Data

Known as: D5

Plant Parts: n/a

INCI: Cyclopentasiloxane

Product Details

Benefits

Quick Drying

- It is a volatile silicone, meaning it evaporates quickly after application, leaving behind the active ingredients (Zinc Oxide).
- Achieves a matte finish which reduces the appearance of shine on the skin.

Water Resistance

- Forms a barrier on the skin to lock in moisture and prevent the product from being easily washed away by water, sweat, or other forms of moisture.
-
