

# Cetearyl Alcohol

---

## General Data

Known as: Cetearyl Alcohol

Plant Parts: n/a

INCI: Cetearyl Alcohol

## Product Details

---

### Benefits

#### *Emulsifier*

- Helps to emulsify and stabilize oil and water mixes to ensure a consistent and smooth texture (which is less greasy and sticky) and maintains the homogeneity of the product.

#### *Thickening Agent*

- Gives the sunscreen an easy-to-apply, spreadable viscosity.
- Prevents the separation of oil and water phases to maintain the homogeneity of the product.

#### *Moisturizing*

- Helps to keep skin hydrated and prevent dryness after sun exposure by forming a protective layer on the skin.
-
