

Amphisol® K

General Data

Known as: Potassium Cetyl Phosphate

Plant Parts: n/a

INCI: Potassium Cetyl Phosphate

Product Details

Benefits

Emulsifier

- Helps to emulsify and stabilize oil and water mixes to ensure a consistent and smooth texture (which is less greasy and sticky) and maintains the homogeneity of the product.

Enhanced SPF Performance

- Evenly disperses active ingredients (Zinc Oxide) throughout the formulation to provide better protection against UV rays.
-
