White Sapphire Matte

Heavy Metals Statement

White Sapphire Matte® (Aluminium Oxide)

Antaria confirms that White Sapphire Matte® does not contain unsafe concentrations of, or use in the manufacture of this product, any heavy metals (as confirmed by ICP-MS).

Based on our knowledge of the raw materials used to produce this product, and information from suppliers, any heavy metals are technically unavoidable due to the natural source of the raw material, and expected concentrations are not more than 10 ppm at present (excluding Ba and Cu which expected concentrations are not more than 25 ppm at present).

Geoff Acton, B. Com. CA
Managing Director
