Product Description

ZinClear®XP65 COCO is 65 wt% pre-dispersed Zinc Oxide in **'COCO Caprylate Caprate'** as the carrier oil and facilitates the formulation of mineral sunscreens.

This dispersion can be incorporated as the main UV filter into primary sunscreens to achieve high target SPF; alternatively, it can also be used in secondary sunscreens such as Lip Balms; Facial Moisturizers; Antiaging sunscreens/creams; Dry Oils; and cleansing products.

COCO Caprylate Caprate is **Skin Penetration Enhancer,** and **Skin Sensory Enhancer, *e.g.* Dry but Silky Finish**. It is **Non-Comedogenic**; and **Hypoallergenic**.
