Product Description

ZinClear®XP57 Coconut White Sapphire Alusion Dispersion is 57 wt% pre-dispersed Zinc Oxide in Organic '**Coconut Oil',** as the carrier oil; it is suitable for **VEGAN**, **ORGANIC**, and **Natural** skincare and sunscreen products.

This dispersion uses a unique/patented combination of Zinc Oxide and White Sapphire which exhibits superior properties, *e.g.* improved aesthetics, and SPF.

This dispersion can be incorporated as the main UV filter into primary sunscreens to achieve high target SPF; alternatively, it can also be used in secondary sunscreens such as Lip Balms; and Moisturizers.

Coconut Oil is Natural/Vegan/Organic; and has **Skin Moisturising**; **Anti-inflammatory; Soothing** and **Antibacterial** properties.

All ingredients of ZinClear®XP57 Coconut White Sapphire Alusion Dispersion are Derived/Organic or Derived/Natural in the scope of ISO 16128-1: 2016, and ISO 16128-2:2017.
