

Product Description

ZinClear® XP65 JJ is 65 wt% pre-dispersed Zinc Oxide in '**Jojoba Oil**' as the carrier oil and facilitates the formulation of mineral sunscreens.

This dispersion can be incorporated as the main UV filter into primary sunscreens to achieve high target SPF; alternatively, it can also be used in secondary sunscreens such as Lip Balms; Facial Moisturizers; Antiaging sunscreens/creams; Dry Oils; and cleansing products.

Jojoba Oil is **Natural**; and has **skin moisturizing; antibacterial; antioxidant;** and **wound healing** properties. It is **Non-Comedogenic;** and **Hypoallergenic.**
