

Product Description

ZinClear®XP50 Sunflower is 50 wt% pre-dispersed Zinc Oxide in '**Sunflower Oil**' as the carrier oil and facilitates the formulation of mineral sunscreens.

This dispersion can be incorporated as the main UV filter into primary sunscreens to achieve high target SPF; alternatively, it can also be used in secondary sunscreens such as Lip Balms; and Moisturizers.

Sunflower Oil is **Natural/Vegan/Organic**; and has **Wound Healing; Antioxidant**; and **Skin-Protecting Barrier** properties. It is **Non-Comedogenic**.
